(St. Louis, MO Area)
October 21-22

*This 20 contact hour high tech
presentation includes:*

- A 150+ page handout
- Over 200 current medical references
- Ready to use
 - reliable and valid examination and outcome measures
 - evidence based treatment techniques
 - thorough review of these pathologies and current medical treatment options

This course is approved by the Louisiana Physical Therapy Board for 20 clinical hours and the Mississippi State Board of Physical Therapy for 20 clinical contact hours. This course is also approved for 20 contact hours for PTs and PTAs in the state of Texas. GREAT Seminars is a Texas CCAP Accredited Provider by the Texas Physical Therapy Association. See inside for other state approvals.

Dr. Steven H. Tepper
PhD, PT, FAPTA

Faculty

Dr. Tepper directs the transitional DPT program at University of Montana. He is an adjunct professor with the University of Delaware, University of Maryland, George Washington University, The Ohio State University and other programs. He is also the President of Rehab Essentials, Inc. Dr. Tepper received his BS in Physical Therapy and a PhD in Experimental Pathology from the University of Maryland. He taught at the University of Maryland for 12 years and then spent 13 years at Shenandoah University where he was a professor and Director of the entry-level and transitional DPT programs. His fields of experience include an interest in endurance testing, differential diagnosis of endurance impairments, and the effects that exercise training have on disease or the prevention of disease. He has authored several chapters and peer reviewed journal articles on various topics. His professional highlights include President of the Cardiovascular and Pulmonary Section of the APTA, Task Force Member on Clinical Practice Guidelines III for the APTA, recipient of the Cardiopulmonary Sections Linda Crane Merit Award, University of Maryland Alumnus of the Year 2003, and Robert C. Bartlett Award for Innovation in Fundraising from the Foundation for Physical Therapy, 2005. In 2016 Dr. Tepper was named a Catherine Worthingham Fellow of the APTA and received the Charles M. Magistro Distinguished Service Award from the Foundation for PT. Dr. Tepper has a passion for teaching and has delicious friends.

Description

This evidenced based course will describe the medical disorders, cover reliable and valid examination tools for understanding the level of impairment/functional limitation and give currently accepted treatment options. A combination of lecture, continual participant interaction, laboratory of clinical examination and case study approach will be utilized. Utilizing clinical signs/symptoms for progressive rehabilitation interventions and their potential outcomes will be covered. Prevention of these common pathologies will be covered as well.

Locations

The complete address and location of your course will be provided in a confirmation letter that will be emailed to you at least 3 weeks before the course.

Chesterfield, MO
October 21-22, 2017

Objectives

Upon Completion of this Seminar, Participants will be able to:

- Explain in lay terms and to other health professionals the common medical pathologies of myocardial infarction, congestive heart failure, chronic obstructive pulmonary disease, diabetes, renal failure, obesity, peripheral arterial disease and deep venous thrombosis.
- Perform clinical examination to assess level of impairment in patients with these medical disorders. Included in this assessment will be signs/symptoms of cardiac compromise, heart rate and blood pressure alteration, basic pulmonary function testing, O₂ saturation, body mass index for determination of level of obesity, ankle brachial index and utilization of clinical scales for assessment of probability of deep venous thrombosis.
- Based on examination/evaluation and literature evidence propose best possible treatment options for the cases given.
- Justify the significance of contraindications for activity/exercise and signs/symptoms of activity/exercise intolerance. Determine when referral to another health professional is warranted.

Feedback From Past Course Participants

"Great presenter!!! Thank you!!! I will I will be a better PT."

"Can't wait to put all this new information into action."

"This was a wonderful course and Dr. Tepper is a great teacher - fun, entertaining and so informative."

"Dr. Tepper has a real gift for imparting an amazing amount of info in a very down to earth way. He respects the professionalism, knowledge and experience of his audience. He answers questions and repeats info in a way that helps people really "get" it. He instills confidence that we can do this and really make a difference."

"This was an EXCELLENT COURSE! Very informative and entertaining. This will be highly recommended to all PT's/OT's that I know!!!"

"I want to thank Dr. Tepper for waking me up to my own health issues and I will follow through! Not even my doctor came close to giving me the knowledge I needed to open my eyes."

"By far the best seminar I've attended. Dr. Tepper is great."

"Wonderful course! Excellent teaching, relevant to clinicians in various areas of care. Will apply course material to my patients tomorrow."

"I have been doing physical therapy for 38 years and I don't know when I've enjoyed and got more out important information from a course. Thank you."

"This was my first CEU course and I will be looking into taking more from GREAT next year! Thank you for a "GREAT" experience!"

"Thank you for pushing our profession, pushing to the level for the best interest of the clients. Thanks for adding passion back into the profession and to my meaning of being a therapist."

Very engaging....funny but gets his point across. Got a lot of info that I can put to use on Monday."

"Excellent AV. Dynamic speaker - entertaining, interactive, very interesting, easy to understand, loved to hear about current research and useful websites."

"First time I remember presenter fully supporting each decision/event with peer reviewed literature"

I believe that this is the best course I've ever taken. Dr. Tepper has a broad knowledge and is great at explaining ideas in a clear manner. Many of the concepts had a practical side.

"Dr. Tepper is AWESOME! I think I want to follow all of his classes as though he were Mick Jagger & me a Rolling Stones fan."

Program Outline

DAY 1

Pathologies Examination and Interventions

7:30	Registration and Continental Breakfast
8:00	Introduction and Basic Underpinnings of Course
9:00	Examinations and Interventions for Myocardial Infarction
10:00	Break
10:15	Examinations and Interventions for Congestive Heart Failure and Chronic Pulmonary Disease
12:30	Lunch (working lunch - on your own) Case Studies, Group Discussion
1:30	Examinations and Interventions for Diabetes and Renal Failure
3:15	Break
3:30	Examinations and Interventions for Obesity and Peripheral Arterial Disease and Deep Vein Thrombosis
6:00	Questions and Answers
6:30	Adjourn

DAY 2

Monitoring and Progressing Rehabilitation Programs

7:30	Continental Breakfast
8:00	Contraindications to activity and exercise; Signs/symptoms of activity and exercise intolerance
10:00	Break
10:15	Common endurance tests
12:30	Lunch (working lunch - on your own) Case Studies, Group Discussion
1:30	Case Studies - Differentiation of neural vs. vascular claudication, obese individual who wishes to lower her risk of CAD, a patient with end stage CHF
3:15	Break
3:30	Case Studies - A patient with end stage COPD, 89 year old who wishes to improve her fitness
5:30	Questions, Concerns, Conclusions
6:30	Adjourn

Great Books

QTY TOTAL
